

Class 6B

Autumn Term 1 2024

Welcome to 6B. I hope you all had a wonderful summer with lots of fun and rest. My name is Miss Beesley and I am the class teacher for 6B. I am sure most of the children will remember me from Year 4. In the class, we also have Mrs Arif and Mrs Parveen working with us. They are new to the school and very excited to be part of the school. The final year is all about adding the finishing touches of the primary curriculum and preparing them for the independence of secondary school. There are numerous opportunities for the children to take on extra responsibilities. Each week, the children will get homework to be completed. The support children get at home, especially consistently reading and talking about their reading with an adult, is vital to unlocking their learning across all subjects. At the end of the Spring Term 2025, children will complete their End of Key Stage Assessments (SATs). On Wednesday 18th September, at 5:15pm, there is a welcome meeting in school to share key messages about Year 6 and a chance for parents to ask any questions. I am looking forward to working with your children this year and, should you have any questions as we settle into the new academic year, please don't hesitate to contact me. Miss Beesley

What are we learning about?

| English | Maths |
|---|---|
| <p>English sessions will use Ross MacKenzie's published narrative <i>The Nowhere Emporium</i> as inspiration for the following writing opportunities:</p> <ul style="list-style-type: none">- A fantasy story showcasing a chase scene between two feuding characters- An information hybrid magazine page focusing on issues surrounding circus entertainment- Free verse and list poetry <p>Grammar focuses:</p> <ul style="list-style-type: none">- subordination omitting the relative pronoun- dialogue punctuation | <p>Key Units:</p> <ul style="list-style-type: none">- identify, represent and partition numbers from thousandths to ten millions.- round numbers to a given power of 10- select efficient methods of working to accurately complete calculations- multiply two and three-digit number by two-digit number- divide four-digit number by one and digit numbers using mental and formal methods |
